DIRECTORS' REPORT TO SHAREHOLDERS

We have the honour to present our fifty-second Annual Report and Audited Statement of Accounts for the year ended March 31, 2012.

2011-12 Operations: Main Results

Sales are the highest ever. Revenue from operations including excise duty in 2011-12 was ₹3,837.2 million (up 10.9% over previous year) and, net of excise duty, it was ₹3,675.4 million (up 10.1% over the previous year).

Profit before tax was ₹445.6 million (6.3% less than the previous year). Net profit after tax was ₹300.8 million (5.3% less than the previous year).

The net return on shareholders funds (net worth) was 62%.

Management Discussion and Analysis

In 2011-12, demand for our products was well in excess of the supply. Supply was hindered by deteriorated labour relations in our Jaunpur factory and an order of the Punjab Pollution Control Board (PPCB), dated October 13, 2011, instructing our Hoshiarpur factory to cease operations in view of their allegation that it was producing effluents with pollutants beyond permissible limits. We explain herein below the events in respect of the said hindrances:

- In our Jaunpur factory, the Wage Settlement became due for renegotiation with effect from April 1, 2011. Around that time, the majority of workers started a campaign of a go-slow of production and then went on a 15-day strike in September 2011. Since then, though there has been some improvement in the rate of production, the situation has not returned fully to normal so far. The Company's stand is that we will not negotiate a Wage Settlement under the pressure of a go-slow. Currently, the matter is under conciliation before the Deputy Labour Commissioner, Varanasi. We are hopeful that the matter will be resolved shortly.
- In regard to our Hoshiarpur factory, the Company denied the allegations of PPCB and took the matter to the Honourable High Court of Punjab and Haryana at Chandigarh. The Honourable High Court stayed the order of PPCB subject to certain

restrictions and heard the matter on numerous occasions. The final judgement of the Honourable High Court was delivered on April 16, 2012, in which it instructed the Company to apply afresh for the required No Objection Certificate and Consents and also instructed PPCB to decide the matter on merit within three weeks of receiving the required information from the Company. The Company has submitted all necessary information to PPCB by May 19, 2012, and now awaits the decision of PPCB. Meanwhile, production of pressure cookers at our Hoshiarpur factory is continuing on a restricted basis. We are hopeful of getting the required No Objection Certificate/ Consents from PPCB and resolving the whole matter shortly.

We are pleased to report that labour relations in Thane factory and Mumbai offices and Hoshiarpur factory are normal. In 2011-12, long-term Wage Settlements were signed with Thane factory workers and Hoshiarpur factory workers and staff. The Agreement with staff in Thane factory and Mumbai offices was signed on April 27, 2012. These Settlements shall be in effect up to dates that range from October 15, 2013, to June 30, 2014.

The number of employees as on March 31, 2012, is 854. Except for Jaunpur factory workers at the moment, the morale of our employees is high. We appreciate very much the contribution of the vast majority of our employees to the successful working of your Company.

Owing to supply restrictions, pressure cooker sales value increased only by 7.5% over the previous year. In cookware, sales value increased by 31% over the previous year. Management is working with full vigour to increase supply to match the growth in demand.

Profit before tax as a percentage of net sales in 2011-12 was 12.1% as against 14.2% in the previous year. Profit after tax as a percentage of net sales in 2011-12 was 8.2% as against 9.5% in the previous year. The reduction in margins is because of low sales growth on account of restricted supply and increase in material costs. The total material cost increased by 12% during the year led by an increase in the cost of aluminium of 13%. Consequent to the increase in input costs, we have effected a price increase in our products of about 8% on February 16, 2012.

In 2011-12, we launched a full range of seven sizes of Induction-Compatible Stainless Steel pressure cookers. In addition, we introduced a Hard Anodised Contura (4 litre) and a new model, Hevibase (3 litre) pressure cooker. We also launched two items of cookware – a Hard Anodised Frying Pan (18 cm diameter) and the Nonstick Dosa Tava (33 cm diameter). All the new products have been well-received in the market.

Cash flow during the year, taking into account all activities, was comfortable. The increase in cash and cash equivalents at the end of the year is ₹34.6 million over the opening balance of ₹467.5 million. The cash and cash equivalents as on March 31, 2012, is ₹502.1 million. Additionally, we have ₹10 million in bank deposits with a term in excess of one year. We have plans to utilise these funds appropriately.

Control Systems

In our judgment, the Company has adequate financial and administrative systems and controls and an effective internal audit function.

Risks and Concerns

All foreseeable risks that the Company may encounter and concerns have been addressed in a documented risk management framework which is reviewed by the Board from time to time.

Threats and Opportunities

The general inflationary trend in the Indian economy is a cause for concern. While the price of aluminium on the London Metal Exchange is 26% down in June 2012 as compared with June 2011, this advantage is nullified by the depreciation by 25% of the Indian Rupee versus the US Dollar in the same period. Management continues to diligently watch cost trends and seeks effective cost controls and necessary adjustment in prices as needed from time to time.

The continuing vitality in the demand for our brands – Hawkins, Contura, Futura and Miss Mary – augur well for the future of your Company.

Outlook

Subject to our being able to overcome the hindrances that are affecting our production of pressure cookers in our Hoshiarpur and Jaunpur factories, we believe the outlook for our business is excellent. We are well-positioned to take advantage of the growth of demand in our markets competitively and to increase our sales and profits handsomely.

All forward-looking statements in our report are based on our assessments and judgments exercised in good faith at

this time. Of course, actual developments and/or results may differ from our anticipation.

2011-12 Operations: Other Aspects

As against an 8% increase in the volume of exports, FOB value of exports was up 19% over the previous year at ₹148.3 million in 2011-12. Foreign Exchange used in 2011-12 was ₹8.1 million as against ₹29.4 million in the previous year.

Information as per Section 217(2A) of the Companies Act, 1956, is given in **Appendix I**.

On March 31, 2011, we obtained recognition for our Research & Development Unit from the Department of Scientific and Industrial Research. Therefore, our expenditure on R&D in 2011-12 shall be eligible for the benefit of deductibility of expenses at the rate of 200% for the purpose of the computation of income tax, subject to the necessary approvals by the Department of Scientific and Industrial Research and the Income Tax Department. The expenditure on Research & Development in 2011-12 was ₹10.4 million, up 9% over previous year which was ₹9.5 million. Required details are given in **Appendix II**. Efforts continue in our factories and offices to save energy wherever possible.

None of the fixed deposits maturing for payment prior to March 31, 2012, remained unclaimed as on that date.

Dividend and Appropriations

We are pleased to recommend Rupees Forty per Share as dividend at the rate of 400% (previous year: Rupees Forty per share). Our recommendation takes into account the profitability, circumstances and requirements of the business.

Out of the amount available for appropriation of ₹483.8 million (previous year: ₹478.9 million), we propose

- ₹211.5 million as provision for dividend (previous year: ₹211.5 million)
- tax on proposed dividend ₹34.3 million (previous year: ₹34.3 million)
- ₹50.0 million transfer to General Reserve (previous year: ₹50.0 million) and
- ₹188.0 million as surplus carried to the Balance Sheet (previous year: ₹183.0 million).

Provident Fund:

The Company's Provident Fund operates under exemption granted under Section 17(1)(a) of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952. Conditions for exemption stipulate that the employer shall make good deficiency, if any, in the interest rate declared by the Trust as compared to the statutory limit.

k. Export Benefits

Duty benefits against exports are accounted for on accrual basis.

l. Foreign Currency Translations

Foreign currency monetary current assets and current liabilities are translated at rates ruling at the year end and exchange differences are recognised in the Statement of Profit and Loss. The Company has not entered into any foreign exchange forward contracts during the year.

Deferred tax is recognised, subject to the consideration of prudence, on timing differences, being the difference between taxable income and accounting income, that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax assets are not recognised on unabsorbed depreciation and carry forward of losses unless there is a virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.
